Go

② Define Case

- Add Case or Notice Send / Received
- Add Case Specs, Notes, Choose Court Type, State, City from court library
- Define Win Prospects, Potential Impact, Expected Costs
- Add Case Comment & attach all case related document
- Allocate case to internal or external lawyers and with review option

3 Case Calendar

- Auto Reminders & Escalation (Mail & SMS) can be sent to persons responsible for the case
- Case Calendar - Check current, past & upcoming months calendar for hearing / response dates
- Check Upcoming & Overdue Case, generate ad-hoc reports
- Case Dashboards with drill down to transaction level

4. Case / Notice update after hearing / reply

- Update Case Hearing Outcome, Cost Incurred, Win Prospects , Case notes and Attach relevant documents
    - If Open, define next dates
    - If closed, define Conclusion
- The update will be send for approval, allows multiple interactions between sender & approver

- For Notices, update reply & status, Cost Incurred, Win Prospects , Notes and Attach relevant documents
    - If Open, define next response date
    - If closed, define Conclusion
- The update will be send for approval, allows multiple interactions between sender & approver

5 Extract Case History & Documents

Create & revisit date wise library for every case

[2017/112/222]- Sch Vs ABC
